

## **Changes in personnel in the Pelikan sales company**

In the course of recent reports on corporate acquisitions (Pelikan Hardcopy and Geha German Hardcopy), we have already indicated that the Pelikan Sales Company, Hanover, needs restructuring as a result of its growing tasks.

An initial signal for this commencing change is now being set by Eckhard Seewöster, 64 years of age, Managing Director of the Pelikan Sales Company for many years, who is simultaneously the committed spokesmen of the "Altenaer Kreis".

Half a year short of retirement, he is now saying farewell and going into well-deserved retirement after 38 years of employment with the company, thus making the way clear for the forthcoming reorganisation.

Under the management of Hans Paffhausen, Head of Pelikan Europe, the course for a successful future and development is currently being set in the largest sales company in the Pelikan Group.

Current business will be coordinated and run by Peter Raijmann, PVG Managing Director for the areas of Controlling and Finances, and by Arno Alberty, Sales and Marketing Head, Europe, until final publication of the future structures.
